

The screenshot displays the DataCamp interface for the 'Introduction to R' course. A payment overlay is centered on the screen, offering two subscription plans: 'Premium' for individuals at \$6.25/month and 'Teams' for groups of 2 and up at \$12.42 per user per month. Both plans are marked as 50% off. Below the plans, a message states 'You will need to upgrade your account to continue'. In the background, the course content is visible, including a code editor with R code and a progress modal for the 'Intro to basics' exercise, which is marked as 'FREE' and 100% complete. The modal lists various topics with their respective XP values, such as 'How it works' (100 XP) and 'What's that data type?' (100 XP). The bottom of the screen shows a taskbar with various application icons and system information.
